SUBJECT: CHRIS SUCHANEK

Dear Sir or Madam:

I have worked with Chris Suchanek for over a year and during this time I have co-facilitated a court-mandated drug counseling group with him and have seen several of his group counseling clients for individual counseling. From my experience with him as a co-facilitator and with the clients I have worked with, I have come to hold high regard for his clinical judgment and professionalism.

The encouragement he provides to his clients is infectious. Chris has a sincerity that allows him to communicate difficult and sometime painful information to his clients, in a way that they are willing to accept and integrate. Furthermore, he has a unique skill at relating remote impressions to provide clarity in perspective. This further facilitates the collaborative working relationship he establishes with his clients; it is from these relationships that he promotes change and healing.

As a colleague, I look to Chris for professional consultation. Discussions of various ethical and legal issues with Chris assist in the refinement of my own professional opinion and practice, and it is with great pleasure that I write this letter of recommend for Chris.

Thank you for your consideration.

Sincerely,

Domonique H. Rood, M.S. IMF#44445
